### FCC eliminates Amateur Radio vanity call sign fee

"The Commission spends more resources on processing the regulatory fees and issuing refunds than the amount of the regulatory fee payment."

### Dayton 2015

The Hara Arena we all know and love continues to be, well, Hara Arena. The good news is renovations are in the works. A Hamvention official told me it's for real and probably a three to four year project.

### Pirate SSTV over US Navy satellites

Radio pirates often make use of the Fleetsatcom satellites to send and receive slow scan television (SSTV) pictures over a wide distance.

[RTL-SDR.COM](#)

### Liquid metal antenna

Boffins have made a liquid metal device which can alter its shape through voltage alone, removing the need for clunky external pumps previously used to arrange such material.

### Fox-1 Operating Guide

Fox-1 Operating Guide released at the 2015 Dayton Hamvention. FM transmitter capability on 435 MHz and FM receiver capability on 145 MHz. A full-duplex radio (capable of receiving and transmitting simultaneously) is recommended.

### Can I use my Ham Radio on public safety frequencies?

The answer to this question used to be that amateur radio equipment cannot be used legally on public safety channels because it is not approved for use under Part 90 of the FCC Rules.

### **Enough already!**

It's yet another rant about how most hams nowadays dress like slobs and need to take a bath. I don't know about you, but I'm getting really sick of this kind of talk.
